PROFILE SUMMARY

Computer Science Engineer with over one month of ongoing experience as a Trainee Full Stack Developer at Cygnus Software. Skilled in developing web applications using React, Python Flask, Node.js, and SQL, with a solid foundation in programming and data structures. Familiar with all phases of the software development life cycle, particularly Agile practices. Demonstrates strong problem-solving skills and the ability to translate business requirements into functional, efficient software solutions.

TECHNICAL SKILLS

- **Language/Library** : Java, C, Python, JavaScript, JSON
- **Web & App Development**: React, Flutter, Flask, Node.js, Express.js
- **Frontend Technologies**: HTML, CSS, Bootstrap
- **Databases**: MongoDB, SQL
- **Tools & Platforms**: Git, Railway, FlutLab, VS Code, Microsoft Office

PROFESSIONAL EXPERIENCE

June 2025 – Present

Trainee – Full Stack Development
Cygnus Software

Coimbatore, Tamil Nadu

Web Application Development

- Developed web application solutions using modern frameworks and languages including React, Python Flask, JavaScript, and SQL.
- Built and maintained responsive user interfaces and implemented secure backend services.
- Utilized SQL for data extraction, transformation, and management to support web applications.
- Integrated frontend and backend components to deliver seamless user experiences.
- Ensured code quality and followed best practices while collaborating in Agile development teams.

Technical Analysis and Testing

- Participated in technical analysis of requirements to recommend effective solutions.
- Conducted evaluation and testing of new software tools and frameworks for adoption in development projects.
- Engaged in code reviews, debugging, and deployment activities, working closely with senior developers to maintain high standards of software quality.

EDUCATION

B.E. – Computer Science and Engineering

2021 – 2025

RVS College of Engineering & Technology
Till 7th Semester CGPA: 7.9

Coimbatore, Tamil Nadu

HSC – State Board (83%)

2019 – 2021

RC Town Higher Secondary School

Kodaikanal, Tamil Nadu

SSLC – State Board (70%)

2018 – 2019

Bhavani Boys Higher Secondary School

Erode, Tamil Nadu

PROJECTS

ATM Transaction Web Application

React, Python Flask, SQL

Developed a web application simulating ATM operations, including login, balance checking, deposits, withdrawals, and transaction history.

ADA Checker Web Application

React, Python Flask, JavaScript

Created a web tool to analyze websites for ADA/WCAG accessibility violations, generating user-friendly reports.

Stock Maintenance System

Flutter, Node.js, MongoDB

Managed product stock data across rooms with CRUD operations and role-based admin controls.

Music App

Flutter

Created an easy-to-use music player that supports playlists.

Automobile Website

HTML, CSS, JavaScript, Bootstrap

Developed a responsive automobile website showcasing vehicle details and booking functionality.

CERTIFICATIONS

- Programming in Java – Elysium (Internship Certificate)
- Web Development – EZIO Skill Academy
- Web Development – ICT Academy (Virtual)
- Programming in Java – NPTEL (65%)
